

Canadian Agricultural Partnership (CAP) 2019 Spring intake March 22 until May 6

The [Canadian Agriculture Partnership \(CAP\)](#) came into force April 1, 2018 and includes \$1 billion for federal activities and programs, and \$2 billion in cost-shared programs delivered by provinces and territories on a 60:40 basis. The goal of the program is to strengthen the agriculture, agri-food, and agri-based products sector and increase its competitiveness, prosperity and sustainability.

The program covers over 40 different project categories from soil amendments to biosecurity – for a complete list see [CAP producer project categories](#).

We anticipate two intake periods each year and they are usually announced less than a month before the intake begins. For producers and processors, applications will next be accepted from **March 22, 2019 until May 6, 5:00pm** (EST). If you are considering an application, it is important to note that the application must be approved before the project can start. You could also begin planning your submission for a future intake.

Ward & Uptigrove assists with applications under the Business Analysis category (Financial Analysis and Business Plans). For all other applications, we have referral sources such as the Technology Initiatives Group Ltd.

About [Technology Initiatives Group](#)

TI Group is a technical writing group that has a strong history [supporting clients](#) through the application and submission process of several government programs. They operate on a contingency basis, so if you don't receive a payment under the program, you don't have to pay TI Group.

TI Group also assists with Scientific Research & Experimental Development (SR&ED) by identifying activities and practices that you may already be doing or could be planning, which could qualify for this tax credit.

For more information on any of these programs or initiatives, we encourage you to talk to your Partner or Principal.
